- (2) 24" Oscillating Misting Fan w/ Poly Styrene Shroud
- (2) 8 nozzle stainless steel mist rings
- Adjustable Pedestal with turf tires
- (1) 160 PSI ½ GPM Booster Pump
- (16) .008" Brass and stainless steel misting nozzles
- (2) Mid pressure feed lines

Employing the principles of both flash evaporative and convective cooling - The Coldblast® can make the most inhospitable indoor/outdoor areas cooler and more comfortable. The high efficiency pump combined with our stainless steel misting rings deliver an ultra fine mist, producing exceptional cooling, without getting personal or equipment wet.

Make your sidelines and practice fields a safer, more productive and hospitable environment.
